RECYCLED PLASTIC
WALL TILES

The sustainable indoor living solution made from waste

ECOLLABO8 is an Indonesian-based plastic recycling company established in 2019 with the goal of promoting the value of waste and collaborating with brands to make a positive impact on the environment through innovative technologies. We aim to educate and empower local communities while producing a wide range of recycled products made from plastic waste, including small products, art installations, furniture, and construction materials.

ECOTILES by ECOLLABO8

THE SUSTAINABLE INDOOR LIVING SOLUTION
MADE FROM WASTE

Each year, humans generate more than 350 million metric tons of plastic waste globally, posing a serious threat to the environment. The irresponsible use of plastics and inadequate recycling worsen the problem, leading to plastic accumulation in landfills and oceans. ECOLLABO8 is created to contribute in solving this crisis for a sustainable future.

EcoTiles by ECOLLABO8 is an innovation where plastic waste is transformed into wall tiles that bring elegance into the indoor living space.

EcoTiles collection is a dedication to mother earth, each tile resonates with the tranquility of nature's most captivating hues. With every glance at the walls, you will be reminded of nature's magnificence and our responsibility to protect it.

» **SUSTAINABLE**

SEEDS OF HOPE

#nohunger

We also do it for the next generations!

10% of our profit goes towards a local orphanage. As part of our sponsorship, we bring weekly food supplies, organic veggies from the local producers. We help to provide workers when there is a need for repairs. We would like to have a long term impact on those amazing kids and we organize weekly workshops to try and find hidden talent or just nourish a passion. Music, painting, yoga, meditation, art craft, water sanitation, and trying to bring as much awareness towards trash and its impact as possible.

“My wish is to create a bunch of sustainable entrepreneurs”

Kevin Vignier - CEO

STUDENTS EDUCATION WORKSHOPS

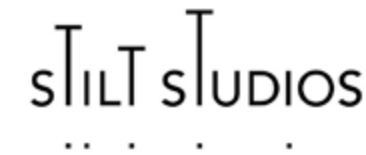

Any change can only come through education, once a month, we welcome students of all ages in our facility to educate them on the different type of plastic, it's use and impact as well as to show them the possibilities of recycling.

Sedex | Member

We use SEDEX/SMETA tools and audits with a view to continuous improvement, ensuring that our activities are based on ethical principles with respect for human and labour rights, as well as the environment, health and safety at work.

As Sedex members, we aim to contribute to a more sustainable supply chain.

THEY TRUST US:

**REACH OUT TO START
A MEANINGFUL COLLABORATION**

CHANGE IS INEVITABLE,
CHANGE IS CONSTANT,
BE A PART OF IT.
