OUTDOOR LIVING

ECOLLABO8, founded in 2019, is an Indonesia-based plastic recycling company committed to transforming waste into value. Through innovative technologies and strategic collaborations with brands, we strive to make a meaningful environmental impact. Our mission extends beyond recycling—we educate and empower local communities while crafting a diverse range of products, from amenities, arts, high-end furniture to construction materials designed to last.

We utilize SEDEX/SMETA tools and audits to drive continuous improvement, ensuring our operations uphold the highest ethical standards. With a strong commitment to human and labor rights, environmental responsibility, and workplace health and safety, we integrate sustainability into every aspect of our work. As proud Sedex members, we strive to foster a responsible and transparent supply chain.

FEATURES

WEATHERPROOF

Our outdoor furniture is engineered to thrive in any climate. Designed for resilience, it withstands intense sunlight, salty coastal breezes, and strong winds without compromising on appearance or durability. Built to last, it's the perfect sustainable choice for outdoor living spaces.

COLORSTAY TECHNOLOGY

Say goodbye to fading and wear! Our innovative UV stabilizers are infused directly into the material, providing long-lasting protection against harsh sunlight. This ensures vibrant, crack-free, and durable finishes that stand the test of time.

SUSTAINABLE

By recycling millions of plastics destined for landfills or oceans, we transform waste into valuable resources.

LOW MAINTENANCE

Enjoy effortless care with ECOLLABO8 lumber. A simple soap-and-water wash keeps it looking pristine—no painting, staining, or waterproofing required. It's an easy, hassle-free solution for outdoor use, saving you time and effort.
